

PAT-1

No of questions : 2

Marks: 10

Duration : 60 minutes

Instruction to be followed:

Use only *Notepad++* to type the code.

1. **Copy, paste the code** as *unformatted text* and **Sequence of Screenshots** (no cropping of screenshots as date & time must be available) of your output in a WORD document and convert to PDF and name your first program as “**regno_yourname_program1.pdf**”
2. Name your html file for program 1 as “**regno_yourname_program1.html**”
3. **Copy, paste the code** as *unformatted text* (both HTML and CSS) and **Sequence of Screenshots** (no cropping of screenshots as date & time must be available) of your output in a WORD document and convert to PDF and name your second program as “**regno_yourname_program2.pdf**”
4. Name your html file for program 2 as “**regno_yourname_program2.html**”
5. Name your CSS file for program 2 as “**regno_yourname_program2.css**”

Upload all the **5 files only in LMS** before deadline.

Question 1:

Requirements for Recipe Website :

1. Header section has a group of list of links for Appetizers, main courses, Desserts (use the following links respectively:
<https://evolvesnacks.com/>
<https://aabsweets.com/>
<https://www.anandsweets.in/>
2. Create 6 different sections where
Section 1 has content on featured-recipe and the corresponding image (use **spagati.jpg**)
Section 2 has ingredients
Section 3 has instructions to be followed
Section 4 has video demonstration of recipe (use https://www.youtube.com/embed/vb5fXuXiuFY?si=pgdEp7j589dFoI_f)
Section 5 allows users to give a comment on the recipe
Section 6 has a table of nutritional information

3. Footer section provides contact information

Note: you can use styles wherever it is required

Expected output of recipe website:

Delicious Recipes

- [Appetizers](#)
- [Main Courses](#)
- [Desserts](#)

Featured Recipe: Spaghetti Carbonara

A classic Italian pasta dish made with eggs, cheese, pancetta, and pepper.

Ingredients

1. 200g spaghetti
2. 2 large eggs
3. 100g grated Pecorino Romano cheese
4. 100g pancetta, diced
5. Black pepper, to taste

Instructions

1. Boil spaghetti according to package instructions.
2. Fry pancetta until crispy.
3. Whisk eggs and mix with grated cheese.
4. Drain spaghetti and combine with egg mixture.
5. Add pancetta, season with pepper, and toss until coated.

Question 2:

Create a website for an online learning platform using HTML and style it using an external CSS file.

HTML file :

1. Under the “learn hub” header section, have a list of home, courses, registration, contact and clicking of any of these will take you to the corresponding section for home, courses, registration, contact respectively
2. Create a section for home as in the design (use [webdev3.jpeg](#)) (use <https://www.interviewbit.com/blog/html-css-books/> for hyperlink)
3. Create a section for course and create image maps using the image [coursecategory.jpeg](#) and
Clicking on Data Science on the image has to link you to <https://www.ibm.com/topics/data-science>
and
clicking on web development on the image has to link you to <https://blog.hubspot.com/website/website-development>
4. Create a section for registration as in the design with a button to register
5. Create a section to have a video for the course
6. Create a section to have a podcast for the course
7. Create a section for contact details as in the design with a button to send messages
8. Have a footer with details mentioned in the design

External CSS file:

1. Body background color must be in yellow with arial font support
2. Header background color must be in black and font color in white with required alignment and padding
3. Set the list-style-type: none to remove bullet points mentioned in point 1 in HTML
4. Each section background color must be in white and border in black
5. Footer background color is in black with required alignment and padding and font color in white
6. Button background must be in black and font in white with required padding
7. Wherever applicable, use appropriate margins and paddings

Expected output of the website:

LearnHub
